## LIKE-a-BIKE Mountain with Red Seat

The LIKEaBIKE mountain is our most popular model.The mountain model stands out through its beautiful design. It is also highly versatile. Indoors and outdoors, town or country the mountain fits right into it. All frame pieces are constructed from strong, attractive laminated birch wood. Wheels are steel rimmed. The Mountain comes equipped with 12" Impac Street Runner

pneumatic tires. The saddle height can be adjusted to 4 different positions and it features an attractive red fabric cover.

What bike is complete without a hopper, kick-stand, and frame pouch? These are available for an additional cost. With these extras, your LIKEaBIKE Forest is ready for anything! A description of each accessory is below the picture.

The hopper is wooden basket that can be attached to the handlebar. If your child wants to take her favorite doll or his favorite truck for a spin, this is the way to go. It can be simply hung over the handlebar for on and off use, or it can be permanently attached with two enclosed screws using the holes for the handlebar. It does not require any drilling. \$41

With the **easy rider kick-stand** your child can park his or her LIKEaBIKE like a Harley. With the help of a short bungee the kick-stand automatically swings up as soon as the young rider starts moving forward. Assembly is easy and does not require any drilling. \$29

The **frame pouch** gets wrapped around the main frame. Inside is room for sunscreen, tissues, action figures, or small treasures that the little rider might find on his or her excursion. Available in blue, green, red, orange, light green, and pink.\$28
